	IMPORTANT Please describe regions within your assigned area that were NOT searched!												
	<div style="display: flex;"> <div style="flex: 1;"> <p><u>Team Leader Information</u></p> <p>1) Team Safety</p> <ul style="list-style-type: none"> - Verify information on the front of this form is complete and accurate. - Ensure team members are properly dressed and prepared for weather. - Instruct your team members to STAY PUT if they become lost or separated. - Notify base when your team is beginning and ending your task. <p>2) Team Communications</p> <ul style="list-style-type: none"> - Assign a member of your team as the team communicator. - Ensure the radio is working properly before you leave base and carry extra batteries. - Call in as specified on the Task Assignment Form. - Collect cell phone numbers of team members, if available, in case you become separated. - All mission communications MUST go through the base. Do not give subject personal information over the radio. <p>3) Search information</p> <ul style="list-style-type: none"> - Do not search outside of your assigned search area unless instructed by the base. - Know your location at all times. Assign a member of your team to be navigator. Ensure you are reporting coordinates in the correct datum. If using GPS make sure to check datum. - Anything may be a clue. Its location and position are also important information. Do not disturb it unless instructed by base. Protect clues from damage, record coordinates and a description, and flag its location. - Do not add discard items in the search area (food wrapper, cigarette butts, etc.). These items could later be mistaken as a clue. - If there is a find by another team, gather your team, prepare to provide your coordinates and await instructions from the base. <p>4) K9 Handlers</p> <ul style="list-style-type: none"> - Please log any K9 alert, noting the coordinates, time / date, direction of alert and wind direction. </div> <div style="flex: 2;"> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="2" style="padding: 5px;">18.
